*I'm a Software Engineer from Romania with **over 6 years of experience** and a strong track record across various areas of development. While my career has primarily focused on web applications, I am now eager to transition towards my **passions in game development and low-level programming**. I am particularly interested in roles that involve working with languages like **C and C++**, and offer opportunities to deepen my expertise in these areas.*

📁 PROFESSIONAL EXPERIENCE

11/2024 – Present

remote
